SKILLS

BACK END DEVELOPMENT | NodeJS, ExpressJS.

FRONT END DEVELOPMENT | ReactJS, NextJS, NUXT3, Angular, Tailwind, HeadlessUI, Material UI.

MISCELLANEOUS | Ubuntu VPS, Machine learning, Solidity, MongoDB Atlas, Github, Figma, Typescript, Docker, Postman.

EXPERIENCE

PIONEERA | React, NodeJS, Express, MongoDB, Monday | ISREAL

Tech Lead | June 2024 - Present

Ensured Software Quality and seamless migration.

- Developed Plugins for Monday.com.
- Seamlessly Migrated 2 Applications from Google App Engine to Digital Ocean Applets.
- I implemented Processes to ensure Type 1 & Type II SOC2 compliance certification.
- Structured API with tests to ensure App integrity and availability in the development and integration of new features.
- I led code reviews and gave constructive feedback to team members.

PAY IT FORWARD (PIF) | React, NodeJS, Express, MongoDB, Jira | DENMARK

Full Stack Developer / QA Tester | Sept 2023 - June 2024

Ensured Software Quality and seamless migration.

- I developed automated tests for API endpoints using Jest and Github runners to ensure smooth integration before deployment.
- I built User-facing components with ReactJS and Tailwind CSS.
- I aligned with team members in developing algorithms for migration from SQL to MongoDB.
- I led code reviews to ensure the company's consistent patterns and the growth of Junior developers on the team.
- I ensured backend infrastructure aligned with the scope of the project for seamless user experience and onboarding.

NETACT SERVICES (NASCI) | ReactJs, Firebase | CANADA

Full Stack Web Engineer | Mar 2022 -Sept 2023

Project Team Lead.

- Aligned with ML engineers in the integration of ML components into a Tumor diagnosis web-based application.
- Collaborated with User experience researchers in designing user adaptive components which both improved user engagement and were in line with the company's architecture.
- Integrated 3rd party services for authentication, data storage, and payment with Firebase and Stripe.

EVOLUTICS TECH INSURANCE COMPANY | Angular 6, Material UI, Infragistics UI | NIGERIA

Front End Web Engineer | Oct. 2021 - Mar. 2022

Developed UI components

- I utilized typescript tooling to write clean and reusable Angular components.
- I collaborated with Backend engineers in the integration of API functionalities.
- Managed version control pipelines with GitHub.

ALL PRIME TECHNOLOGIES | Angular 6, Yodiz, Infragistics, Typescript, RxJs | NIGERIA

Front End Web Engineer Intern | Apr. 2020 - Nov. 2020

- Gained valuable hands-on experience in developing UI components with team lead engineers.
- I collaborated with team members in the integration of Infragistics UI components.
- I aligned with the Backend engineer's API consumption.

CONTRACT EXPERIENCE

BLASTERO ADVERTISING AGENCY | NodeJS, Express, MongoDB, Notion, Miro | REMOTE

Full Stack Web Engineer

- Integrated email services via SendiBlue to run campaigns for new products.
- Built and managed subscription-based services with NodeJS and PayPal's payment API.
- Managed deployment and server health with Hostingers VPS and github actions for automation.
- Built frontend architecture with Nuxt3.

PERSONAL PROJECT

Brain Tumor Detection Web Application Using A Convolutional Neural Network Model

Skills: Python, HTML, CSS, JAVASCRIPT, Google Collabs

EDUCATION

Bells University Of Technology

BSc, Biomedical Engineering **4.27/5 CGPA**.

HOBBIES

Avid table tennis player, Chess player, Cooking, Guitarist
